ROOM CHANGE PROCESS

You can change your housing assignment online by submitting a Room Change. Log into MyHousing and click on the Room Change link. You can change your room until early July, 2022 after which the system will close for fall move-in preparation. Following move-in, the system will re-open for room changes to continue.
Because more than 5,000 residents will populate university housing over the course of a few days, each resident is assigned a specific day and time to move in. Floors in most residence halls are further assigned to either morning or afternoon arrival times.

**When You Arrive:**
1. When checking in to your residence hall, unload your belongings directly onto the sidewalk area.
2. Parking in front of the residence hall is limited to 15 minutes while you check-in and obtain your parking pass. Parking passes are issued one pass per family and limited to two-hours. Passes should also be displayed in vehicles.
3. Report to the check-in area for your residence hall assignment.
4. You will receive your room key and mailbox key or combination.
5. As you settle into your room, please note any issues or concerns to discuss with Residential Life staff at your first community meeting.

**Early Move-In**
It is not possible to move in earlier than stated without an early-arrival request, due by August 1, 2022. See page 8 for more details. Campus maps and driving directions to each residence hall and our Temple University-sponsored housing sites can be found online. Students who move in early and DO NOT APPLY for an Early Arrival will be fined and charged for each day they arrive early factoring in their scheduled arrival day and time.

**Late Move-In**
If you intend to arrive later than the designated Move-in dates, you must notify University Housing and Residential Life and your department of study. Email your intended arrival date to University Housing and Residential Life at housing@temple.edu before the semester begins. Failure to do so will place you in no-show status and jeopardize your room assignment.

**Move-In Help**
Resident assistant and volunteers will provide directions and assistance, as well as distribute room keys, mailbox codes and keys, and important documents while you move into your hall. We recommend bringing family or friends to assist you.

Carts will be available to help you move your belongings. Using carts will require the borrower to leave a valid means of identification, like a driver’s license or a student ID, as a security deposit. If you fail to return your cart, you will be billed for its replacement.

Please note that carts are distributed on a first-come, first-served basis. Also, carts are limited by building so in some cases depending on the traffic at a given day, time, and location carts may not be immediately available. Only students may borrow and return carts.

*Please note that only one cart will be issued for each student.*
*For technical support during move-in, see page 15.*

Computers & Printing

Most students bring a laptop for use in their room. Generally, we recommend a 16GB RAM system running either Windows 10 or above, or macOS Monterey or Big Sur. It’s best, however, to consult the [its.temple.edu/shoppersguide](http://its.temple.edu/shoppersguide) website, as some schools, colleges and individual departments may have very specific requirements. This site also has information about student discounts and OWLtech, Temple University’s official technology store. A computer from a major manufacturer is recommended, as technical assistance is not available for custom-built systems.

Students are entitled to free downloads of Microsoft 365 and Adobe Creative Suite. To learn more, visit [its.temple.edu/office](http://its.temple.edu/office) and [its.temple.edu/adobe](http://its.temple.edu/adobe). Cloud file storage is also available with Microsoft OneDrive ([its.temple.edu/onedrive](http://its.temple.edu/onedrive)).

The TECH Center is a state-of-the-art facility with more than 500 Windows and Mac desktop systems available for students, along with 13 breakout rooms. Loaner laptops and power banks for charging devices are also available. There is ample space to use laptops with power outlets at every table. There are also black and white laser printers, color laser printers, poster printers and support if you need help. For current hours and details, see [techcenter.temple.edu](http://techcenter.temple.edu).

Ready to print? Use Print on the Go wireless printing to make use of your free printing quota. Print on the Go printers are available on the first floor of each residence hall and in many other campus locations. Find out more at [its.temple.edu/printgo](http://its.temple.edu/printgo).
