HOUSING SELECTION

WHERE WILL YOU LIVE NEXT YEAR?
Whether you are an incoming freshman, transfer, returning sophomore, junior or senior, or graduate student, we encourage you to consider Temple’s on-campus housing accommodations. Using our online housing selection program, Student Web Self-Assign (SWSA), you can select roommates and request specific housing options.

HOUSING SELECTION PROCESS
The housing selection process works on a first-come, first-served basis. The earlier you submit a deposit, the better your chance of getting the housing you prefer. Though demand is great and we can’t make guarantees, if you submit a deposit on time in accordance with our proposed schedule, you should receive on-campus accommodations. If you do not receive housing, your deposit will be refunded or applied to your university account. Twenty-four hours after the Bursar’s Office processes your housing deposit, you can log in to the MyHousing website via TUportal to book your room with Student Web Self-Assign (SWSA).

Note: Delays in processing deposits might occur on nonbusiness days and holidays and during system upgrades.

STEP TWO
BOOK YOUR ROOM AND MEAL PLAN

Our Student Web Self-Assign (SWSA) system makes room and meal assignments easy. Log in to MyHousing via TUportal and click Student Web Self-Assign (SWSA) to get started.

1. Select your hall. For information about each hall, visit housing.temple.edu and click on Residence Halls in the Campus Living section or see page 7.

4. Request your roommates. You will need Residential Management System (RMS) and TUid numbers to access this step.

5. Identify your bed space to confirm your room assignment. Your assignment should include the coordinating suffix to your slot in the room. For example, a six-person apartment in Temple Towers would be identified by TT-E101-1 through TT-E101-6.

6. Confirm your room selection.

7. Select your meal plan.

8. Confirm your meal plan.

9. Print your room confirmation and deposit receipt.
MEET YOUR MATCH

Finding a roommate can be one of the most challenging parts of the housing process. At Temple, we understand that as you transition from high school to college, finding a compatible roommate is a crucial part of your decision-making process.

To make it easier to find a compatible roommate, we use RoomSync, a special roommate-matching program available as an application in Facebook. According to research, students who use RoomSync perform better academically. In part, that’s due to the choice you have in selecting the right roommate for a successful residential experience.

After submitting your housing deposit, you are automatically added to RoomSync, where you will be able to create a profile, search for other incoming Temple students and hopefully identify someone who could become your ideal roommate.

You will be able to begin your search in the early spring 2015 semester and continue as we open the housing selection process for new students.

Check out tutorials from RoomSync and University Housing and Residential Life to see the applications in action. Visit housing.temple.edu, select Your Housing and click Tutorials.

Learn more about the RoomSync app on the Temple University Housing and Residential Life Facebook page.
COMMIT TO LIVING ON CAMPUS

Once you have committed to living on campus by submitting a housing deposit, you’ll receive an email inviting you to join our private RoomSync network. (Only those who submit housing deposits will be allowed to join.)

We also send out periodic reminders to encourage as many students as possible to join the matching network during its active period.

ENTER YOUR INFORMATION

To create the best match, we ask key, detailed lifestyle questions, such as preferred bedtime, visitor frequency, and preferred academic majors and residence halls.

INTERACT WITH THE OWL COMMUNITY

Once you’ve joined our RoomSync network, you can begin connecting with other students by posting on our online community wall, a place for students to meet potential roommates and also to create new friendships.

SEARCH FOR ROOMMATES

You may search for roommates based on your lifestyle preferences and filter down to those who fit within your ideal range. Or you can view your most recommended roommates determined by lifestyle compatibility.

Additionally, if there is a specific interest you would like to have in common with your roommate, you can search for users with related keywords listed in their Facebook profile. You can also search for roommates by academic major and preferred residence hall.

REQUEST ROOMMATES ON FACEBOOK, CONFIRM IN STUDENT WEB SELF-ASSIGN (SWSA)

You can request a roommate with RoomSync. Once the selected roommate confirms the request, you can access the completed roommate request in the RoomSync Administration site. Then include your new roommate in the Student Web Self-Assign (SWSA) booking system by adding Residential Management System (RMS) ID and TUid numbers.

There are so many opportunities for cultural, recreational, social and academic growth on Temple’s wide spread, metropolitan campus. Temple’s Living Learning Communities (LLCs) enhance students’ academic, personal and professional growth by offering dedicated residential communities. They combine a challenging curriculum with thematic experiences that take learning beyond the classroom and integrate it with daily campus life. And with so many opportunities for student-created programming—such as community service and artistic performances—that complement the classroom, LLC students’ responsibilities are, in many ways, their own learning tool. They’re also a great way to have a well-rounded college experience.
TEMPLE’S LIVING LEARNING COMMUNITIES PROVIDE

• partnerships with faculty and staff.
• dialogues with peers about academic and social issues outside the classroom.
• increased satisfaction with the overall academic experience.
• enhanced connections with Temple and the city of Philadelphia.
• increased satisfaction with the transition to a large university.

“We have become like a big family; we eat together, study with one another, and are always willing to help each other out. We all have our own friends and activities outside the LLC, as well, but when you come home, you’re welcomed with open arms.”

Lakin Daynorowicz
Civil Engineering, Class of 2016

“I am really glad I chose to be a part of the Fox LLC. It helped me immerse myself in the student life here at Temple. Through the program I met really great friends, which made the transition to college life a lot smoother.”

Gina Marie Dupnik
Accounting, Class of 2016
PEER MENTORS
HELPING OUR RESIDENTS LIVE, LEARN AND GROW

Temple University’s residence halls support the academic achievement of our residents and strengthen the academic mission of the university. The Office of University Housing and Residential Life is committed to creating an environment that values and promotes an appreciation for diversity of lifestyles, cultures and people. Peer mentors are similar to resident assistants: They work to create a positive living environment by fostering a sense of community, providing help and assistance, and working with students and staff to ensure the best possible conditions in residences. They also work closely with staff and students over an extended period and can positively influence your growth.

PEER MENTORS ALSO

• are knowledgeable about their specific department and the university overall.
• convey appropriate information to residents.
• encourage academic achievement.
• take an active role in residence hall programming.

"Through community service, I’ve been able to work with kids that I cherish.”

KRISTINA LINDO

"It helped me open up a lot more than I used to be. I feel like I found my second family. This is my home.”

ROSA CRUZ
Political Science, Class of 2018

"We are family. We enjoy helping others to feel better.”

AUSTIN ANPELOQUIO
