MyHousing is the all-in-one system used for managing all housing and meal plan services on campus.

In addition, MyHousing can be used to submit requests for special services throughout the year and during the annual housing selection process through forms and applications.

There are three (3) options in MyHousing for students: My Housing, My Meal Plan, and My Forms.

My Housing
is the system students use to manage room selection, review booking details, and search for roommate details. Students can apply for housing during any period housing is offered to students such as the Annual Housing Selection Process for Fall, Spring housing, Summer housing, or Graduate housing.

My Forms
is the system students use to manage all other housing services offered by University Housing and Residential Life. My Forms include forms, requests, and/or applications students may need to complete for added housing services.

My Meal Plan
is the system students use to manage their Meal Plans: add, delete, or change. Students can also add meal plans when they book housing in My Housing during any of the Housing Selection Processes. Students who select housing may only delete or change meal plans unless they are purchasing Block Meal Plans.
